GREAT Funds

GREAT Moderate Efficient Frontier Portfolio

Portfolio Factsheet

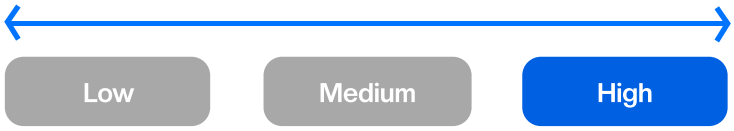

The GREAT Moderate Efficient Frontier Portfolio provides passive exposure to diversified global asset classes through publicly listed exchange-traded funds structured within a balanced allocation framework. The portfolio is designed to combine long-term capital appreciation with portfolio stability by maintaining diversified exposure across global equities and fixed income markets.
Constituent inclusion is based on predefined eligibility criteria assessing asset class diversification benefits, liquidity, cost efficiency, and investability rather than discretionary security selection. The portfolio is intended for investors seeking balanced exposure to global markets through a transparent, systematic, and institutionally structured portfolio framework informed by efficient frontier allocation principles.

Risk Indicator

Investment Objective

The portfolio seeks to provide long-term capital appreciation while maintaining portfolio stability by delivering diversified, passive exposure to global equity and fixed income markets within a balanced allocation framework that manages concentration, liquidity, and structural risks associated with diversified multi-asset portfolios.

Investment Methodology

- **Passive portfolio construction based on defined eligibility criteria**
- **Efficient frontier allocation framework emphasizing balanced asset allocation**
- **No discretionary security selection or tactical positioning**
- **Monthly portfolio rebalancing to maintain allocation alignment and diversification**

Portfolio composition is determined using predefined inclusion criteria assessing asset class diversification benefits, liquidity, and investability. Portfolio changes are implemented through systematic monthly rebalancing in accordance with the established methodology.

Portfolio Snapshot

Asset-class Breakdown

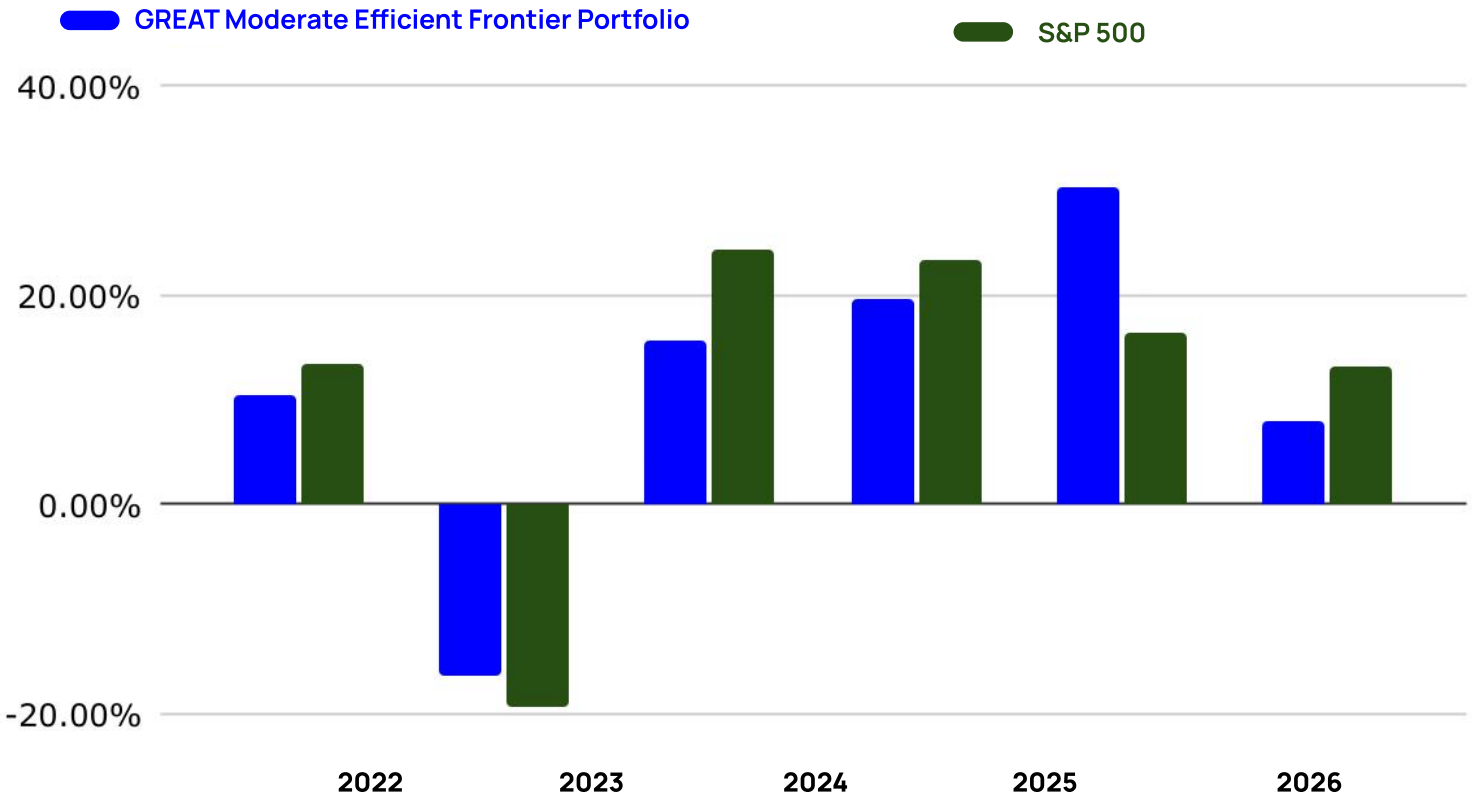

Sector allocations reflect the functional role of portfolio constituents aligning with the Efficient Frontier investment thesis rather than conventional index sector classifications.

Model Returns of Hypothetical $100 Invested

Model Returns for Last 5 Calendar Years

Thematic Exposure Framework

The portfolio represents multiple segments of the global capital markets ecosystem, including:

- **U.S. large-cap equity markets**
- **Developed international equity markets**
- **Emerging market equities**
- **Global investment-grade fixed income markets**
- **U.S. mid- and small-cap equities**

Asset eligibility and allocations are reviewed through the monthly rebalancing process to ensure continued alignment with the portfolio's efficient frontier–based allocation framework.

Portfolio Governance & Review Process

Portfolio composition is reviewed and rebalanced monthly under a predefined governance framework. Reviews are conducted to:

- **Maintain alignment with the efficient frontier allocation framework**
- **Confirm diversification across global asset classes**
- **Assess liquidity and market accessibility**
- **Implement methodology-defined reconstitutions**

Portfolio changes are systematic and methodology-driven. No discretionary overrides are applied.

Investor Suitability

This portfolio may be appropriate for investors who:

- **Seek balanced exposure to global equities and fixed income markets**
- **Have a medium- to long-term investment horizon**
- **Prefer a diversified portfolio balancing growth potential and stability**
- **Prefer transparent, systematic portfolio construction**
