

GREAT U.S. Mega Cap Leaders Portfolio

Portfolio Factsheet

The GREAT U.S. Mega Cap Leaders Portfolio provides passive equity exposure to leading large-cap companies within the United States through publicly listed securities. The portfolio is designed to represent market-leading businesses across sectors, focusing on companies with significant scale, market dominance, and established global presence.

Constituent inclusion is based on predefined eligibility criteria assessing a company's leadership position, market capitalization, and relevance within the U.S. large-cap ecosystem rather than conventional sector classifications alone. The portfolio is intended for investors seeking balanced exposure to dominant U.S. companies through a transparent, systematic, and institutionally structured investment approach.

Risk Indicator

Investment Objective

The portfolio seeks to provide long-term capital appreciation by delivering diversified, passive exposure to publicly listed large-cap companies with significant market leadership and scale within the U.S. equity market while managing concentration, liquidity, and structural risks associated with thematic investing.

Investment Methodology

- Passive portfolio construction based on defined eligibility criteria
- Thematic framework focused on U.S. mega-cap market leadership
- No discretionary security selection or tactical positioning
- No benchmark tracking or replication
- Monthly portfolio rebalancing to maintain allocation efficiency and diversification

Portfolio composition is determined using predefined inclusion criteria assessing market leadership, scale, liquidity, and investability. Portfolio weights are constructed using a rules-based efficient frontier allocation framework. Portfolio changes are implemented through systematic monthly rebalancing in accordance with the established methodology.
